

# A Passion for Programming?

**Apply now for Semester 1, 2009**

## **COMP1024: Conceptual Foundations of Computer Programming**

**In this course you'll learn:**

The fundamental concepts of computing & programming using problem-based approaches with an advanced higher-order programming language.

How to build abstractions with procedures, data, types of data & functions.

Data modelling & program debugging.

**Apply in writing (attaching your school results):**

W: <http://www.itee.uq.edu.au/~comp1024/>

E: [paul@itee.uq.edu.au](mailto:paul@itee.uq.edu.au) (Professor Paul Bailes)

P: 3365 3869

Enrolment to this program is based on your OP score/school results OR your UQ GPA.
